Stop AT&T's use of an outdated ordinance to stonewall and drag their feet, preventing Google from installing their fiber lines efficiently

9/14/2016 4:45 PM [View respondent's answers](#)

It would allow contractors unaffiliated with the service providers to perform work on the utility poles, therefore avoiding contrived and manufactured delays by providers wanting less competition for limited clientele.

9/14/2016 4:45 PM [View respondent's answers](#)

It would speed up the process of bringing google fiber to Nashville

9/14/2016 4:45 PM [View respondent's answers](#)

Instead of waiting for each individual incumbent ISP to move the equipment on the utility poles to make room for Google, Google can do so instead. Since, chances are they are using the same contractors all around... this would only speed things up.
